Hi from Adafruit!

Due to high demand, expect some shipping delays at this time - orders may
not ship for up to 2-3 business days. The Adafruit team thanks our customers
and community for all their orders and patience!

With the UPS 3 Day, 2nd Day, and Next Day shipping options, orders placed by
11am ET during weekdays usually ship same day. Expedited orders placed after
the cutoff should ship the next business day.

There is no Saturday or Sunday delivery or shipping. There are no shipping
or deliveries on a holiday. Adafruit's shipping services are business day
services, weekends and holidays are not considered shipping days for arrival
time.

Keep in mind shipping guarantees are suspended if delays are caused by bad
weather or other disasters. We cannot refund shipping fees if your package
arrives late due to snow or other natural disasters including meteors,
aliens, terrorism, incursions from other dimensions, etc. anywhere along
your package's route.

For more details about shipping, please see our shipping FAQ,
adafruit.com/shippinginfo

Thanks for your order and support,
Adafruit Shipping
